

RECORDED BOOKS, SERVICE PARTNER TERMS AND SHARED INFORMATION

Effective August 23, 2018

PARTNERS:

The following is a list of Recorded Books, Inc. Partner Services. The list is continually changing as we strive to bring our customers the latest in quality content. Depending on the services your library purchased, some, none, or all of these services may be available to you.

A Data Protection Agreement (DPA) exists between Recorded Books, Inc. and each Partner providing services. The agreements specify the personal information the Partner will receive and the conditions under which the information will be securely stored, processed, and anonymized when you close or abandon your account. The agreements are GDPR compliant.

In order to deliver the services contracted by your library, Recorded Books, Inc. shares your Personal Information with these partners but only if you create an account with a specific Partner. We share this information because the Partner needs to know that you are a valid library patron entitled to Recorded Books, Inc. services. We provide only that information necessary for the partner to create and maintain your account. If available, each Partner's service terms, privacy policy, cookie policy, and the information we share are shown below.
